PROFESSIONAL SUMMARY

Systems Analyst and Full Stack Developer with 5+ years of proven experience in architecting, developing, and automating enterprise web applications, with core expertise in React, JavaScript (ES6+), TypeScript, and Node.js. Committed to delivering accessible (WCAG compliant), high-performance, and responsive user interfaces integrated with RESTful APIs, cloud infrastructure, and automated workflows. Extensive track record in the Moodle LMS ecosystem, leading the architecture of an institutional Design System (npm package with CI/CD on Vercel), building RPA automations with Selenium and web scraping, and sustaining high-availability environments. Currently pursuing a Postgraduate degree in DevOps & Cloud Architecture at FIAP, specializing in Docker, Kubernetes, CI/CD, AWS, and system observability.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, Design Systems, HTML5, CSS3, Accessibility (WCAG), Responsive Design.

Backend & Automation: Node.js, Express, RESTful APIs, Webhooks, Selenium (RPA), Web Scraping, Python, PHP, Supabase.

DevOps & Cloud: AWS, Vercel, Docker, CI/CD Pipelines, Git, GitHub Actions, Linux, Cloud Architecture Concepts.

Databases: PostgreSQL, SQL, Supabase, BigQuery, MySQL.

Platforms & Tools: Moodle LMS (Custom Themes, Plugins, Web Services), Jira, ClickUp, Gitflow, Postman, Figma.

AI & Automation: Prompt Engineering, LLM APIs (OpenAI, Claude, Gemini), AI Agent Orchestration, Intelligent Automation.

PROFESSIONAL EXPERIENCE

Full Stack Developer (Moodle) • Lingopass

Sep/2026 – Present | Remote (São Paulo, Brazil)

- Engineered custom plugins (activities, blocks, reports) and adapted theme layouts (Boost and custom child themes) in PHP, elevating user experience and institutional branding.
- Architected and sustained robust integrations between Moodle and external platforms via REST APIs and webhooks (HubSpot, Intercom, Stripe, BigQuery, Node.js/TypeScript).
- Conducted proactive monitoring and rapid mitigation of critical production incidents involving caching, high concurrency, and authentication services.
- Enforced strict QA standards, pre-deployment testing routines, and technical documentation across pedagogical and engineering teams.

Tech Stack: Moodle, PHP, Node.js, TypeScript, REST APIs, Webhooks, BigQuery, Boost Theme.

Full Stack Developer • University of Fortaleza (UNIFOR)

Sep/2025 – Sep/2026 | On-site (Fortaleza, Brazil)

- Acted as technical lead for the institutional Design System: conceived, architected, and maintained a modular UI library versioned via npm with CI/CD on Vercel.
- Mentored and onboarded Multimedia Developers on coding standards, Moodle configuration, and front-end publishing best practices.
- Developed RPA scripts and process automations using Node.js, Selenium, and web scraping, dramatically reducing manual errors and operational turnaround time.
- Managed and resolved Level 1 (L1) critical incidents within Moodle, maintaining strict SLA adherence and high availability.

Tech Stack: React.js, TypeScript, Node.js, Selenium, NPM, Vercel, Design Systems, REST APIs, Git.

Front-End Developer • University of Fortaleza (UNIFOR)

Apr/2023 – Sep/2025 | On-site (Fortaleza, Brazil)

- Developed and evolved accessible (WCAG) responsive interfaces in Moodle utilizing Bootstrap and JavaScript, optimizing rendering performance and brand consistency.
- Automated internal UI distribution pipelines across development environments using Node.js, Selenium, and GitHub Labs.
- Built interactive digital course catalogs using React.js with automated deployment workflows on Vercel.

Tech Stack: React.js, JavaScript, Bootstrap, HTML5/CSS3, Accessibility (WCAG), Vercel.

Web Development Intern • University of Fortaleza (UNIFOR)

Jul/2022 – Apr/2023 | On-site (Fortaleza, Brazil)

- Assisted with front-end template development, responsive styling, and educational content maintenance across institutional LMS courses.

Tech Stack: JavaScript, HTML5, CSS3, Moodle LMS, Git.

Data Science Researcher • UNIFOR / FUNCEME

Apr/2022 – Mar/2023 | Fortaleza, Brazil

- Geospatial optimization of Ceará State Water Supply: developed Python ETL data pipelines (Pandas) and analytical visualizations (Matplotlib) to support technical decision-making.

Tech Stack: Python, Pandas, Matplotlib, ETL, Geospatial Data Analysis.

EDUCATION

Postgraduate Degree in DevOps & Cloud Architecture

Oct/2025 – In Progress

FIAP – Faculdade de Informática e Administração Paulista

Bachelor's Degree in Systems Analysis and Development

Aug/2021 – Dec/2023

University of Fortaleza (UNIFOR)

LANGUAGES

Portuguese: Native • **English:** Advanced / Fluent (Technical reading, corporate writing, and fluent conversational skills).
